Thermo Scientific Snap Cap Microcentrifuge Tubes

Thermo Scientific™ Snap Cap Microcentrifuge Tubes are one of the most versatile among lab consumable products. Whether you're preparing, transferring or storing samples, these multipurpose snap cap tubes can be used with confidence.

Snap cap tubes are made with ultra clear virgin polypropylene offering excellent clarity allowing for simple sample retrieval. 0.5, 1.5 and 2.0 ml tubes are engineered for durability, and can be boiled, autoclaved at 120°C at 15 P.S.I. for 15 minutes, and stored at -80°C. Centrifugation Force (g) ranges from 25,000 x g to 30,000 x g.

Thermo Scientific Snap Cap Microcentrifuge Tubes

Item No.	Description	Sterility	Color	Force	Packaging
3446	0.6 ml Tube, Flat Top Cap, Graduated at 0.2, 0.4, 0.6 ml	Non-Sterile	Natural	30k x g	100 tubes/bag, 10 bags/unit, 10 units/case
3449	0.6 ml Tube, Flat Top Cap, Graduated at 0.2, 0.4, 0.6 ml	Sterile	Natural	30k x g	100 tubes/bag, 10 bags/unit, 10 units/case
3448	1.5 ml Tube, Flat Top Cap, Graduated at 0.1, 0.5, 1.0, 1.5 ml	Non-Sterile	Natural	26k x g	50 tubes/bag, 10 bags/unit, 10 units/case
3451	1.5 ml Tube, Flat Top Cap, Graduated at 0.1, 0.5, 1.0, 1.5 ml	Sterile	Natural	26k x g	50 tubes/bag, 10 bags/unit, 10 units/case
3434	2.0 ml Tube, Flat Top Cap, Graduated at 0.5, 1.0, 1.5, 2.0 ml	Non-Sterile	Natural	25k x g	50 tubes/bag, 10 bags/unit, 10 units/case
3453	2.0 ml Tube, Flat Top Cap, Graduated at 0.5, 1.0, 1.5, 2.0 ml	Sterile	Natural	25k x g	50 tubes/bag, 10 bags/unit, 10 units/case

Snap Cap Microcentrifuge Tube Clean Claims

- Non-sterile: Certified DNA, RNase/Dnase, Pyrogen and Endotoxin-free
- Sterile: Certified DNA, RNase/Dnase, Pyrogen, Endotoxin, PCR inhibitor, and Bioburden-free

Versatile Durable Snap Cap Tubes with a Secure Seal

Flexible Cap Collar

designed for easier one hand tube opening and closing that helps contain splashing during opening

Beveled Cap

offers an angled design making opening of the tube more comfortable.

Frosted Cap & Side

molded into the tube for labeling and tracking

Secure Seal

precision molded tubes provide a leak proof snap seal closure that allows repeated openings and closings yet resists popping open from internal pressure while centrifuged or boiled

Hydrophobic

resin technology offers low sample retention allowing maximum sample recovery

Format Rack Fit

enables tubes to be placed close together in a multitude of racks from 24 well to 80 well styles, providing maximum storage space

Conical Tapered

tube makes ideal fit in centrifugation rotors and assists in sample precipitating

Graduation Marks

are molded into the tube providing an accurate, easy to read volume measure

Thermo Scientific Screw Cap Micro Tubes

Offering protection, flexibility and choice in the lab

The robust design, exacting material selection and feature-rich qualities of Thermo Scientific Screw Cap Micro Tubes help to ensure optimal results when working with biologics in your lab.

Consider the following options when selecting the right screw cap tube for your application:

Knurled and Non-Knurled/Skirted and Conical Bottom

Expansive Temperature Range

Screw cap tubes operating temperatures range from -80°C to +95°C and suited for the rigor of:

- Short term storage in vapor phase Ln2, -80°C, -20°C, dry ice and wet ice
- Sample preparation with water bath, incubator and centrifuge
- Suitable for a quick dip flash freeze in Ln2

Sturdy, easy-to-handle secure-seal caps

Screw cap micro tubes are available with the option of multicolored caps, with or without tethered straps, that feature an O-ring to help prevent leaks under demanding conditions.

Knurled Cap helps you achieve a firm grip when opening and closing

Beveled Edge helps smooth transfer in automated systems

Non-Knurled is ideal for automation and labeling

Skirted Bottom or Free Standing Bottom

Choose from a wide selection of screw cap tubes, ideal for:

- Sample preparation
- Separation, product transfer and transportation
- Short-term cold storage

Natural and Amber Ultra-clear natural tubes

Natural tubes are made from 100% virgin polypropylene to help ensure maximum clarity for biological-based work. Both amber and natural tubes are commonly used for applications related to:

- Non-specific binding
- Permeability & dye stability
- pH compatibility
- Transformation

Uniform Wall Thickness

Robust to withstand demanding applications. RCF range from 18,000 to 25,000 x g

Etched Cap Top Surface

Helpful when applying labels or writing on cap

Knurls lock tube into specialty racks for single-handed operation

Non-skirted conical bottom

rugged
durable
and
secure-seal

UV protective amber tubes

For hard-core sample protection, choose from a selection of amber tubes that provide an ultra violet (UV) protection avg. of 1.22% transmittance between 220 and 500 nm.

*E-Beam, Electron Beam Sterilization

*Mixed includes all colors except Amber, 50 caps per color

Thermo Scientific Specialty Microcentrifuge Tubes

Ideal for your small volume protocols, Thermo Scientific Specialty Microcentrifuge Tubes offer an attached snap cap to provide a leak-tight seal. The specially formulated 0.4 ml low-density polyethylene tube can be easily cut for pellet removal.

Thermo Scientific Specialty Microcentrifuge Tubes

Item No.	Description	Sterility	Color	Packaging
3483	0.25 ml Polypropylene Tube & Cap	Non-Sterile	Natural	50 tubes/bag, 10 bags/unit, 10 units/case
3485	0.4 ml Polyethylene Tube & Cap	Non-Sterile	Natural	50 tubes/bag, 10 bags/unit, 10 units/case

Thermo Scientific Microtiter Cluster Tubes

The 1.2 ml tubes can be autoclaved, sealed and frozen for storage. Additional volume capacity and the 96-well robotic formatted racks make them ideal for serial dilutions and mixing prior to plate transfers. Non-autoclavable 8 strip caps simplify tube closure.

Thermo Scientific Microtiter Cluster Tubes

Item No.	Description	Sterility	Color	Packaging
3487	1.2 ml Microtiter Tube Robotic Rack	Sterile	Natural	96 tubes/rack 10 racks/unit, 5 units case
3496	1.2 ml Microtiter Tube Robotic Rack	Non-Sterile	Natural	96 tubes/rack 10 racks/unit, 5 units case
3492	1.2 ml Microtiter Tube Bulk	Non-Sterile	Natural	1000 tubes/unit, 10 units/case
3425-11	1.2 ml Microtiter Tube Plug Strip, LDPE non-autoclavable, 8 cap strips	Sterile	Natural	10 sealed bags of twelve 8 cap strips/unit, 5 units/case
3426-11	1.2 ml Microtiter Tube Plug Strip, LDPE non-autoclavable, 8 cap strips	Non-Sterile	Natural	10 sealed bags of twelve 8 cap strips/unit, 5 units/case

Clean claims for Specialty Microcentrifuge Tubes and Microtiter Cluster Tubes

- Non-sterile: Certified DNA, Rnase/Dnase, Pyrogen and Endotoxin-free
- Sterile: Certified DNA, Rnase/Dnase, Pyrogen, Endotoxin, PCR inhibitor, and Bioburden-free

extra small volumes, unique capabilities

ideal for serial dilutions

Thermo Scientific Storage Racks

With bench space at a premium, we offer a variety of rack solutions to organize your laboratory work space while conducting, transporting and storing your experiments.

Supports sample transfer from larger volume tubes to PCR tubes

- Holds 0.2 and 0.5 ml, 1.5 and 2.0 ml tubes
- 3.81cm tall x 20.32cm wide x 11.43cm deep
- Double-sided
- With clear lid

Double sided, ideal for PCR preparation

- Holds 0.2 ml and 0.5 ml tubes
- 3.81cm tall x 20.95cm wide x 11.43cm deep
- 96-wells, double-sided
- With clear lid

Thermo Scientific Flipstrip Racks

The double-sided Flipstrip Racks are like having two racks in one. One side provides 96 wells with alpha numeric grid that can hold 0.5 ml conical style PCR, microcentrifuge and screw cap micro tubes. The other side supports sample transfer from larger to smaller PCR tubes by offering a row of 12 wells that can hold 1.5 ml and 2.0 ml skirted or conical style microcentrifuge and screw cap micro tubes, and remaining rows of larger volume wells for 0.2 ml tubes or conical style PCR tube strips.

Thermo Scientific™ Flipstrip™ Racks			
Item No.	Description	Color	Packaging
8618	Flipstrip Rack	Assorted	3 racks of each color (fluorescent green, fluorescent pink, fluorescent orange & purple), 12 racks/case
8668	Flipstrip Rack	Fluorescent Pink	12 racks/case
8678	Flipstrip Rack	Fluorescent Orange	12 racks/case
8688	Flipstrip Rack	Fluorescent Green	12 racks/case

Thermo Scientific Reversible Racks

This versatile, reversible rack features one side with an alpha numeric 8 x 12, 96-well grid that can hold 0.2 ml individual PCR tubes. The reverse side is also alpha numeric 96 well format that can hold 0.5 ml conical style PCR tubes, microcentrifuge tubes and screw cap microtubes.

Thermo Scientific Reversible Microtube Racks			
Item No.	Description	Color	Packaging
8601	Reversible Microtube Rack	Assorted	3 racks of each color (fluorescent green, fluorescent pink, fluorescent orange & purple), 12 racks/case
8660	Reversible Microtube Rack	Fluorescent Pink	12 racks/case
8670	Reversible Microtube Rack	Fluorescent Orange	12 racks/case
8680	Reversible Microtube Rack	Fluorescent Green	12 racks/case

Versatility, go to rack for micro tube sample preparation

- Holds 0.5, 1.5 and 2.0 ml tubes
- 5.08cm tall x 20.95cm wide x 11.43cm deep
- 96-well, double-sided
- With clear lid

Thermo Scientific Flipper Racks

Our Flipper rack is two-sided. One side has an alpha numeric 8 x 12 grid, 96 well format, that can hold 0.5 ml conical style PCR tubes, microcentrifuge tubes and screw cap microtubes. The reverse side is also alpha numeric 8 x 12 grid, 96 well format and holds 1.5 ml and 2.0 ml skirted or conical style microcentrifuge and screw cap micro tubes.

Thermo Scientific Flipper Racks

Item No.	Description	Color	Packaging
8760	Flipstrip Rack	Fluorescent Pink	10 racks/case
8770-11	Flipstrip Rack	Fluorescent Orange	10 racks/case
8780	Flipstrip Rack	Fluorescent Green	10 racks/case

Space-saving and versatile with four sides fitting tubes

- Holds 0.5, 1.5, 2.0, 15 and 50 ml tubes

Thermo Scientific Four-Way Flipper Racks

Side 1 Alpha numeric 8 x 4 grid, 32 well format, holds 0.5 ml conical style PCR and microcentrifuge tubes and screw cap microtubes.

Side 2 Alpha numeric 8 x 4 grid, 32 well format, holds 1.5 ml & 2.0 ml skirted or conical style microcentrifuge and screw cap microtubes.

Side 3 12 wells will hold 15 ml conical tubes.

Side 4 4 wells will hold 50 ml conical tubes.

Thermo Scientific Four-Way Flipper Racks

Item No.	Description	Color	Packaging
8850	4-Way Flipper Rack	Fluorescent Green	20 racks/case
